No.: 027/BD/07/1.2.

## **FOREWORD**

Since 15 August 2005, the Office for Justice and Peace (*Sekretariat Keadilan dan Perdamaian* or SKP) of the Diocese of Jayapura possesses two superiors: **Diocese of Jayapura** and the **Custody of the Franciscan Herald of Peace in Papua** (*Fransiskan Papua*). This development results in a consequence both from the vision and mission aspect and the aspect of office operation. From the vision and mission aspect, SKP integrates the spirituality of Justice, Peace, and Integrity of Creation that has its roots in the Franciscan spirituality as well as the Social Teaching of the Church. The three main pillars: justice, peace and integrity of creation have given direction and guidance for SKP in its steps and actions all along.

This annual report is presented as accountability from the SKP Board of Executives from the period of 2005-2009 to its Board of Founders. This report presents the portrait of SKP's performance in implementing the vision and mission into work programmes that were prepared in the early 2005 (see attachment). This report includes the activities of four divisions and their supporting activities namely finance and assets, capacity building, and networking. Based on SKP's work meeting on 17-21 December 2006, the main points of the report are summarised as follows:

1. Division of Advocacy consists of investigation unit, emergency humanitarian aid, lobby, including the lobby team for Papua Land of Peace
2. Division of Publication and Documentation, including printed and electronic documentation.
3. Division of Peace Culture Development, encompassing the development of peace education, socialisation of the idea of Papua Land of Peace, and inter-religious dialogues.
4. Division of Ecology handles the field of environment preservation in the perspective of ecological justice
5. Supporting activities including finance, personnel, welfare, and networking.
6. Conclusion and recommendation.

### **1. DIVISION OF ADVOCACY**

Advocacy programme is the backbone of the SKP's existence. Therefore, this programme serves as the substance and determines the nuance of SKP's ministry all this time. It consists of four elements: advocacy, humanitarian aid, investigation, and lobby. In the beginning of the year, this division received additional facilities in the

form of a video so that advocacy can be strengthened by the use of audio visual equipment.

### **1.1. Advocacy for Vegetable-Selling Women: March-November 2006**

This advocacy is aimed at raising the issue of discrimination against indigenous Papuan in their own land. Indigenous Papuan is being discriminated against in many aspects of life such as social, politics, economy and culture. This can be found in various government policies in such aspects, which are not in favor of the indigenous Papuan. A description can be seen clearly in economy aspect where indigenous Papuan is rendered helpless and at the bottom rung.

The Papuan vegetable-selling women in Jayapura are an example of economic hardship. They are marginalised and have no decent place to develop their own economy in their own land. Government's obligation to protect, promote and fulfill the basic rights of Papuan as its citizens is not accommodated in the policies of Jayapura city government. The provision of facilities such as market, business opportunity and economy empowerment is not a focus of attention of the Mayor at all.

This advocacy is directly aimed at a change of policies in the level of city government to provide facilities such as a traditional market for those Papuan vegetable-selling women, to formulate a Regional Regulation on empowering people's economy in the framework of fulfilling their rights to work and decent living.

#### **Various activities:**

##### **A. Field research**

The purpose of this research is to find out the actual condition of Papuan vegetable-selling women in Jayapura and to analyse Jayapura city government's policies that are not in favor of these women. Research was conducted in Jayapura in February-November 2006, involving the programme's executors and assisted by 8 volunteers as researchers.

The research took a relatively long time because of several factors such as volunteered researchers (KKRS and SSM groups), who are students, were also quite preoccupied with campus activities so that we had to replace them with new volunteers. The coordination and internal communication were hindered for a while because the person in charge of the programme had to take up a course in human rights mechanisms and internship in Geneva for two and a half months, which was followed by a personal leave. The situation after the incident on 16 March 2006 also influenced the movement of our volunteers in carrying out their research in the field. However, the obstacles were soon overcome by the presence of one programme execution staff (Ibu Dominggas Nari) to continue the coordination.

The result of the research was presented in a seminar/workshop on 25 November 2006 in a commemoration of anti violence against women day (anti-violence day). In the event, SKP in cooperation with the Coalition of Papuan Women in Jayapura invited the Mayor, Papua Human Rights Commission (Komda Papua), LP3AP, journalists and the vegetable-sellers themselves in order to discuss the issue openly. This activity received support from many parties and was able to raise the issue of discrimination against these Papuan women to the level of public awareness.

##### **B. Accompaniment**

The purpose of accompaniment is to organise and to enable the Papuan vegetable-selling women to build their collective power in fighting for their rights.

The activity started in May 2006 and still continues until now by involving the Parish

Priest of Cathedral Jayapura, programme executors and volunteers. The accompaniment was originally held only on Sunday every month at Cathedral Parish Centre. Subsequent meetings were becoming more frequent every 2 weeks at APO Parish Centre. In the meetings, the women were encouraged to understand government's regulations related to public facilities such as market and street vendors, and Mayor's Decree on the market eviction.

This accompaniment cannot be called entirely a success because it has not been conducted for a long time and it will continue in the future. However, solidarity among the vegetable-selling women can already be seen even though they come from different races, religions, residence, or work at different places. They have also started to understand the issue in a wider scope. Another success is in encouraging the Board of Parishes (its social unit) at the Cathedral to become active again in paying attention to some of those women who are also congregation of this parish.

One of the obstacles is the limitation in number of staff for accompaniment as well as in the accompaniment method itself. This obstacle has been evaluated in our work meeting and was included in our action plan 2007 as a follow up programme.

### **C. Video Advocacy**

The making of a video about the vegetable-selling women is aimed at raising the issue of discrimination against Papuan in audio visual form. This video will be used as a tool to support overall advocacy work in order to reach the purpose of advocacy. This advocacy video was made by SKP in cooperation with WITNESS, an international agency working in the field of video advocacy. In this cooperation, WITNESS supported SKP by accompaniment during the video making process and providing facilities in the form of 2 video cameras, a miniDV player and its various accessories. The programme was conducted by 1 programme execution staff (Rosa Moiwend) assisted by 3 volunteers.

The technical work of this video consists of several stages: pre-production, production and post-production, almost all of which were done in Jayapura. The editing and disc production, which are part of post-production, will be done in Jogjakarta with SKP's partner, "Tandabaca". The video making process took a long time and was originally hampered due to the limited number of executing staff, whereas the work itself should have been done by a working team, especially the technical activities. It was also because the programme execution staff of this video programme had to double as executors in several other programmes. On the other hand, the situation after the 16 March incident required a lot of SKP's attention. Nevertheless, the problems were overcome by recruiting 3 volunteers who then assisted in the whole process.

WITNESS' technical assistance in the video making process went well with one follow up training in Jayapura. The training was very helpful in giving direction to the programme execution staff in implementing the programme. The training was actually designed for SKPs from all over Papua but because the timing was very close, other SKPs have carried out similar course and the training was therefore focused on SKP Jayapura and more on the video making process of the vegetable-selling women. All training and communication materials were in English whereas the programme staff's ability in speaking English is still limited. Nonetheless, it can be said that the process went smoothly.

The video will be released in three versions: local, national, and international. At the moment, the process being carried out is the post-production stage of preparation for editing, which has reached 70%. The whole process will finish early 2007. At the

moment a rough cut of the local version has been produced and premiered during the seminar/workshop on 25 November 2006.

## **1.2. Advocacy on the Incident of 16 March 2006 in Abepura**

SKP's involvement in this case started with monitoring the situation during the clash between demonstrators and the police and a monitoring on the situation after the clash, especially the sweeping operation carried out by Papuan police. The case then became the focus of SKP's attention and absorbed most of the energy, time, and financial resources because we are under the opinion that the case has opened a door to silence the freedom of expression for Papuan and to stigmatize Papuan students as 'separatists'.

**At the early stage**, SKP's involvement was in the form of [1] national and international lobby during the incident, [2] accompaniment for the victims in prison and victims' families, [3] together with JPIC GKI, Elsham and Abepura Victims Community, revealing the facts of violence committed by the police after the incident, [4] providing information for religious leaders in Papua. We are also involved in various meetings with religious leaders and NGOs to break the ice and the tension among the community.

**In the next stage**, SKP, JPIC and PGGP (*Persekutuan Gereja-gereja di Papua*/ the Ecumenical Council of Churches in Papua) facilitated the wish of the victims' and their families to obtain legal accompaniment professionally. As a follow up to legal accompaniment, a team called B 16 M Defence Team was formed, consisted of SKP Jayapura, JPIC of the Synod of the Evangelical Christian Church, PBHI Jakarta and Elsham Papua. The team then represented 7 out of 23 victims in the legal process that they had to undergo. Meanwhile, 16 other people were represented by another legal accompaniment team. The humanitarian accompaniment for those 23 victims is still carried out by B 16 M team.

The work carried out for 8 months from March to October 2006 resulted in the publication of a report outlining the result of investigation on behalf of PGGP. With the report, PGGP then lobbied the Governor of Papua, Komnas HAM both in Papua and Jakarta, diplomatic missions in Jakarta, and PERADI (Indonesian lawyer association). The process was highly supported by the financial support from Caritas Australia, provided to assist with the smooth running of the legal accompaniment .

The legal accompaniment cannot be said to have fully succeeded because of several very influential factors, one of which was the lawyers at ALDP, LBH Papua, and Kontras Papua who previously handled the 16 defendants disagreed with SKP's choice to involve lawyers from PBHI Jakarta. This disagreement resulted in a conflict in the working relationship among these organisations. However, SKP's choice was merely to defend the defendants' legal rights and interests that were neglected during the accompaniment by the lawyers from Jayapura. This was proven from the lawyers' silence regarding the suspicion over the torture suffered by the defendants while they were in the hands of the police and the lack of critical attitude towards the legal process that the defendants had to undergo. As a result, the defendants were sentenced severely although the evidence of their involvement in the 16 March case as charged had not been strongly proven in the court process.

As explained above, the programme was very demanding and absorbed a lot of resources. As a result, SKP's internal programmes planned for the beginning of the year finally had to start late, were postponed or even canceled. The impact of this will be found in the next sections of this report below. By this, we do not intend to excuse our shortcomings but instead we use it as the basis to understand why there were

lateness and shifts in the programmes and why such decisions were inevitable because the incident was something out of everyone's control.

Another problem was that both director and manager programme were abroad during the incident so that internal coordination was quite disturbed. In our evaluation, this is a note for us not to have both main leaders to be out at the same time for a long period of time.

### **1.3. Investigation on Wembi Case: April 2006**

This investigation was carried out soon after the attack and murder of two soldiers in Wembi by OPM at the border. We went to the field together with the Priest of Keerom who faithfully stood by his congregation who was in fear because of the incident.

Our presence was to give strength to the community, to monitor the army (TNI) assigned in the area, and to celebrate Easter service because STFT Fajar Timur students canceled their arrival. Communication was well established with TNI Yonif 509 unit whose weapons were stolen so that there was no violence that could claim lives. The accompaniment was held for a relatively long time and was continued with a visit for Christmas service of 2006.

### **1.4. Investigation in the border area at Oksibil: August 2006**

Investigation in the border area at Oksibil was one of the programmes held in cooperation with SKP Merauke. The programme is a continuation of last year's and was intended to monitor the development of the situation in the borders of Pegunungan Bintang for the past 5 years. The result of investigation is expected to be able to give a portrait of humanitarian situation in the borders of Papua and Papua New Guinea. In particular, the visit to Oksibil was intended to monitor the general situation in Oksibil such as education, health, security and military presence. This visit to Oksibil was also to introduce an SKP intern (Timo Sefire ofm) to enter the dynamics of SKP work.

The programme received a positive response from the pastoral team of Pegunungan Bintang. Positive response also came from the congregation there. There is no formal coordination with the pastoral team but it is expected in the future that a more formal working relationship can be established especially to respond to the needs of the congregation on grassroots level.

### **1.5. Investigation on Health Care System in Jayawijaya District**

Investigation on health care system in Jayawijaya District is aimed at:

1. Identifying the main factors influencing the health care system in Jayawijaya District.
2. Analysing the co-relations between health care system, political situation and local bureaucracy as well as defence and security issues in Jayawijaya District.
3. Proposing a change of health policies in Jayawijaya District.
4. Serving as a material to launch a campaign on a change of policies in Jayawijaya District, Papua and National levels.

This programme was held in cooperation with INSIST Jogjakarta by involving two of their affiliated NGOs: YPRI and Inninawa. The activity was carried out in three stages: training the researchers, field research and workshop. **The first stage: training on investigation** was held for 6 days (1-6 November 2006) at Bethesda Training Centre and was attended by 25 representatives from various church denominations in Jayawijaya (Catholic, Kingmi, GKI, Baptist, Gidi). **The next stage** was exploration and field research and was carried out for 2 weeks (7-25 November

2006) in 8 districts namely Wamena Kota, Kurulu, Asologaima, Assolokobal, Bolakme, Tiom, Kwiyawage, and Balingga districts. The exploration was also carried out at Wamena. **The third stage** was a seminar and workshop on the result of research for 3 days (11-13 December 2006) in Wamena to commemorate World's Human Rights Day.

This research resulted in a report uncovering that the health care system in Jayawijaya District was inadequate and it was predicted that an epidemic might continuously occur because of the weak monitoring system, the minimum funding for health care service, and the bad district administration. This report received a positive response from the Jayawijaya regional government and church leaders, and was followed up by the establishment of two working groups namely Kwiyawage and Kurulu groups. These groups will run a pilot project on the development of health care service independently in both districts.

Although this programme was successful, there were problems during its implementation. Out of 25 training participants, only 6 of them joined in the researcher team. This was because the information did not clearly reach the churches and the participants.

#### **1.6. Humanitarian aid in Kwiyawage**

The programmes planned for this area are continuation of the previous years intended to restore community's empowerment and independence in the aspects of food, health, and critical awareness. This year, together with Rev. Perinus Kogoya, we planned training for midwives but it could not be carried out because the weather and the airstrip condition made it impossible for us to come in at the end of the year. Furthermore, we had to shift this programme to the end of the year considering that we had to focus our work on Abepura case. As a result, we paid limited attention to this area by sending a chainsaw as a Christmas gift and to fulfill the promise we made last year.

#### **1.7. National and International Lobby**

##### **1.7.1. National Lobby**

Lobby on the national level occurred in the form of several involvements such as B 16 M team, PGGP and Forum of Religious Leaders (*Forum Pemimpin Agama*). In B 16 M team, SKP was involved in the effort to reveal the facts in the police operation after 16 March 2006 incident in Abepura. The team provided complete report of the investigation and PGGP published and reported it to Papua Human Rights Commission (Komda HAM) on 29 September 2006 in Jayapura and to the Indonesian Human Rights Commission (Komnas HAM) on 5 October 2006 in Jakarta. Before this particular step, during and after the incident, SKP worked with religious leaders in Papua to negotiate and lobby both central and regional government officials in handling the incident. The intervention of these religious leaders was able to reduce the high tension that prevailed in Papua at that time.

##### **1.7.2. International Lobby**

In line with the reason behind the presence of Franciscans International, SKP was involved in UN's lobby with the intention of 'spreading the words of Christ in the world's centre of decision-making'. Therefore it is no wonder that international lobby has become an annual activity in the framework of SKP's cooperation with FI and Inter-Religious network in Europe since 2002. This activity was supported by the preparation of a report to UN's Human Rights Commission in January 2006. This programme was conducted in Geneva from January to March 2006.

This year's international lobby is directed at diplomatic missions in UN by giving the latest information on Papua and the campaign of Papua Land of Peace, UN's bodies especially in the field of Indigenous People and Minority Groups, ILO, UNHCR and Special Rapporteur on Torture. Another agenda is to mobilize inter-religious network in Europe. The activity was carried out by Br. Budi Hernawan, ofm and Ms. Frederika Korain. Specifically, this lobby was also directed at the Indonesia's Ambassador to the UN, Makarim Wibisono, to explain about the actual condition in Papua and to discuss future response in the framework of Papua Land of Peace. In this meeting, Br. Budi Hernawan, Ms Frederika Korain, and Hofni Simbiak were present. Apart from lobby, the programme is also linked to a course on human rights mechanisms in UN High Commissioner for Human Rights for Frederika, continued with an internship at FI office from March to early May 2006.

The achievement of this programme is the strengthening of a relationship with certain diplomatic missions such as European Union, England, Australia, New Zealand, Scandinavian countries, United States, the UN Special Rapporteurs, and UN High Commissioner for Human Rights in Bangkok. From the series of lobby conducted, there had been an exchange of information on Papua as well as information obtained from UN bodies regarding how far Papua had been discussed at UN. We also invited partner agencies to come to Papua.

Specifically with the Indonesian government, the lobby was very useful to provide a wider perspective regarding the actual condition in Papua and to minimise suspicions and wrong perception. Such meeting is useful to build future communication.

As an important note: lobby programme highly relies on the availability of information obtained from the grassroots level (community) to serve as a portrait of humanity. This means that SKP is demanded to monitor the dynamics all over Papua region. Therefore, it is important for SKP to continue field visits to grassroots as it has always been SKP's strength.

### **1.7.3. *Franciscans International in Bangkok***

In June 2006 in Bangkok, the Franciscans leaders from all over Asia and Pacific gathered in Bangkok to follow up on the plan to establish an FI office in Asia. One of the Founders, P. Ferdinand Sahadun OFM, was present as the Custos of Papua. In the meeting, we were present in order to share experience in advocacy and lobby on UN level and in voicing the aspiration of victims who could find no other ways in their own country.

It is a blessing that SKP was the only one who had the opportunity every year to voice the human rights condition in Papua in light of Franciscan spirituality and the Church's Social Teaching. The opinion and experience from grassroots level enriched the discussion and provided a clear picture of what can be done by those who work in villages for the UN level advocacy, as well as what the benefits and demands are.

It is clear that FI has loyally maintained its role as a mediator for the Brothers and Sisters who want to channel the victims' voice on UN level and not becoming programme carrier for their Brothers and Sisters. At the end of the meeting, the Franciscan leaders agreed unanimously to begin establishing FI office in 2007 in Bangkok.

### **1.7.4. *Lobby Team on Papua Land of Peace***

The team was slacking again during 2006 because its members were becoming more and more involved in politics. Incidentally, the team assisted the lobby process

on national level when reporting Abepura 16 March 2006 case. A candidate who had started working at the secretariat of the team finally withdrew for family reason. However, we still occasionally attended meetings such as with Forum Asia in Bangkok. One of the team members, Ibu Mien Roembiak, represented us in the meeting between human rights defenders in Asia. Therefore, it can generally be said that this programme did not run very smoothly and needs to be reviewed in 2007.

## **2. DIVISION OF PUBLICATION AND DOCUMENTATION**

The publication and documentation programme is a manifestation of SKP's vision in providing objective and balanced information to the public regarding the current condition in Papua. This activity is a routine one.

### **2.1. Website [www.hampapua.org](http://www.hampapua.org)**

The programme is a routine one since 2003 in the effort to provide information through this unlimited media. With the support from OFM Province Australia, this programme continues and gives wider contribution to communities with access to internet. Everyday the site is visited by an average of 2616 hits.

### **2.2. Publication of revised MBD book**

At the beginning of the year, SKP completed what had been published as a book entitled "Membangun Budaya Damai dan Rekonsiliasi di Papua" (MBD or *building peace culture and reconciliation in Papua*). This revised edition is the development of the previous edition which was only a report from the workshop on *Membangun Budaya Damai* or building peace culture which was held by SKP on 25-30 November 2002. The book tried to accommodate the following development in the form of essays developed from the formulation resulted in the workshop and statements from religious leaders in response to the social and political dynamics in Papua.

### **2.3. Publication of books of Memoria Passionis 2004 & 2005**

After being delayed for two years, SKP managed to publish MP 2004 book and distributed it. This book received a warm welcome through a review in Suara Perempuan Papua tabloid No. 15/ year III on 13-19 November 2006. The display this time was changed because it had been divided according to the themes in human rights framework and accompanied by photos, maps, and tables to assist the readers more.

However, the publication plan of MP 2005 book was delayed because SKP needed to focus its attention on handling Abepura 16 March 2006 incident and its impacts.

### **2.4. Republishing of the book Papua Land of Peace**

The English edition of this MBD book quickly sold out and was very useful for communication and lobby regarding Papua on the international level. Therefore, SKP reprinted the book with the hope that it would fulfill the two needs.

### **2.5. Papua Actual Series**

Considering that the two staff was not fully present because of participating in a course overseas and maternity leave, the programme was relatively neglected in the beginning of the year. Therefore, at the end of the year we had to catch up on the material. This material is usually distributed among pastoral workers within as well as outside the Diocese of Jayapura and to SKP's partners. The soft copy of this material is always available at SKP's website.

### **2.6. Library**

Together with the website, this programme was also funded by OFM Province of Australia which has run for three years. The programme is intended to develop an adequate source of reference for SKP staff and network in human rights field, reconciliation, and Papua. The collection in these three main fields continues to be developed in English as well as in Bahasa Indonesia.

### **3. DIVISION OF PEACE-BUILDING**

Although the understanding of Papua Land of Peace is integrated in every division, this particular division specifically pays attention to the development of Papua Land of Peace vision to be more widely recognised in every aspect of community lives in Papua.

**3.1. Evaluation on *Tim Kemanusiaan Papua*** (Papua humanitarian team or TKP) Papua Humanitarian Team is a group of students in Jayapura who are interested in humanitarian issues in Papua. The group was formed during a human rights investigation training facilitated by PBHI last year. SKP developed a partnership with this group and helped with TKP's evaluation process and work planning at the beginning of 2006. In the evaluation, SKP provided information regarding the issues in Papua in the international world. From this meeting, it was clear that there was so much fake information that could be clarified and confronted based on SKP's documents and experience in UN forum in Geneva.

In the course of the team work, the group gradually dissolved because a number of key members worked in a new place or moved to other areas.

#### **3.2. JPIC animation for Franciscan Senior from all over Papua**

At the end of OFM senior Custody Papua retreat on 15 May 2006, SKP socialised a document entitled "*embracing the excluded*" from the international JPIC Franciscan animator congress in Brazil. In this event, the fraternity of the Custody refreshed and renewed their commitment to integrate and to implement JPIC spirituality in daily lives, in work environment, and in wider community. For this purpose, an animator of each guardianate was assigned to accompany the brothers in implementing the spirit in the most concrete context at Guardianate Moanemani-Timika-Agats, Sentani-Bade, Baliem, Abepura-Waena, and Jayapura. The brothers also clearly and strongly supported SKP's work as an embodiment of JPIC Franciscan's spirituality.

#### **3.3. JPIC animation for Franciscan Students**

Animation for Franciscan Students is a programme that has started since early 2005 and continues until this year. In August 2006, an animation session was specifically held to discuss the document "*embracing the excluded*" from worldwide JPIC Franciscan animator congress in Brazil. In this event, the youths were refreshed, challenged, and encouraged to think and to contemplate on the consequences of the existing documents for us in Papua.

#### **3.4. Seminar on Papua Land of Peace**

The theme Papua Land of Peace was socialised among theology students at STT Walter Post on 22 August 2006. During the seminar, the students are invited to explore the meaning of peace more deeply.

The activity is a good opportunity to explore deeper the response and the understanding of theology students who practically come from Pegunungan Tengah on the issue.

#### **3.5. International Peace Day: 21 September 2006**

Considering the shift in SKP's internal programmes due to its involvement in B 16 M team, the commemoration of International Peace Day this year was not held specifically by SKP; instead, it joined in a committee with Peace Brigades International (PBI). The activity included distributing flowers, messages via RRI (Indonesian Radio), screening films about peace and writing peace messages.

### **3.6. Animation of Papua Land of Peace for youths : 4 October**

The animation happened on the invitation from Minor Seminary of St. Francis of Assisi, Waena, who held a religious camp for youths and children in the pastoral area of Jayapura. The opportunity was used to encourage around 400 children and youths to explore the meaning of 'peace' and 'building peace' in Papuan context. The meeting with these youth and children group was something new for us and it enriched our experience and insight in translating PTD in youth level.

### **3.7. Reconciliation Programme in Baliem Valley**

In 2001-2003, SKP held an activity to build awareness and social reflection in Baliem Valley. It was attended by the chiefs in order to respond to the atmosphere of violence and the degradation of the living standard in the area. This first step then echoed by an invitation to continue the activity. We therefore sent Enius Lokobal, an SKP volunteer in Baliem, to assess the various possibilities and opportunities to build reconciliation among the chiefs in the area. The exploration mapped the opportunities that will be followed up in year 2007.

### **3.8. Cooperation with religious leaders**

Since the beginning, SKP has been highly involved in the effort to develop inter-religion dialogs. In various events, SKP bridged these religious leaders to gather and to discuss social justice issues that prevailed in community. Such cooperation developed to a point where these religious leaders formally formed a cooperation forum.

On the Christian side, church leaders formed the Ecumenical Council of Churches of Papua (PGGP) with the intention of developing a communion among Christians within the vision of Papua Land of Peace.

At the end of the year, such development has narrowed down and gave birth to the Consultative Forum of Religious Leaders (FKPPA) which was declared on 4 December 2006. SKP was assigned as a member of the expert team to provide data, criticism, suggestions, and solutions in developing the forum as well as in responding to the social and political dynamics occurring within Papuan community.

## **4. DIVISION OF ECOLOGY**

Slowly but surely, this division programme develops well. As a new programme, SKP works in a networking system with the environmental NGOs and the individuals who are concerned with the environmental issues. It was a learning process for us in the Board of Executives because there was no special staff in the division.

A series of activities started on 4 October 2005 and culminated with an event where we announced the winners of the competition and gave out prizes. From our evaluation, the competition were not socialised enough at schools, which resulted in low number of participants. This was despite the high interest in the event itself which could be seen from last year's seminar where MIPA UNCEN great hall was crowded with high school students interested in the event.

Considering the limitation and the newness of the experience, SKP did not try to repeat what has been done by the environmental NGOs or UNCEN's research institution; instead, we tried to bring up a perspective of ecological justice to the people of Papua. This point of view is still new and unfamiliar in Papuan culture so that SKP put forward the idea with a slogan "Towards Papua Environment Day". The issues were focused more on the city waste with a beach-cleaning action on 3 June 2006, which was also held to commemorate Environment Day 5 June.

## **5. SUPPORTING SYSTEM**

Apart from the four programme divisions, SKP has three supporting elements which provide vital assistance to SKP's movement both internally and externally. These three elements are finance and asset division; staff, staff's capacity building and welfare; and network.

### **5.1. Division of Finance and Asset**

#### **5.1.1. Internal Audit 2005**

SKP had its first audit as part of the commitment of this period's Board of Executives to improve the health of the organisation and to rearrange the existing financial system so that it will be more transparent and healthier. The audit was conducted at SKP Jayapura Office from February to June 2006, involving the treasurer and the director. The audit was performed by the economic expert from the Diocese of Jayapura, Br. Henk van Mastrigt OFM.

Far from what expectation, there had been five-month delay before the audit could be accomplished and the result could be reported to the sponsors and the Board of Founders the financial accountability. It was found from the audit that there was no abuse by the Board of Executives. However, the financial administration required serious improvement because the existing financial reports did not provide a complete picture of SKP's assets. The reports were not compiled together so that it was difficult to assess SKP's assets or debts quickly.

During the audit, the Auditor assisted SKP's Treasurer to design an administration system which is simple but able to report all types of bookkeeping. In this process, SKP's Treasurer felt that the demands of the Auditor were constantly changing and beyond the Treasurer's capability.

The audit was followed up with a routine accompaniment from the Auditor but it did not run smoothly because the Auditor himself had other commitments which made it impossible for him to assist SKP's Treasurer regularly. Therefore, SKP requested the help of Atma Jaya Yogyakarta Team of Auditors to meet the need.

#### **5.1.2. Reorganising internal financial mechanisms**

In 2006, after the internal audit by the Diocese's economic expert, a number of new policies were established to rearrange the bookkeeping mechanisms at SKP. Cashier position which was originally held by SKP's staff was given to diocese's cashier because of the administrative discrepancies created by the previous person, as well as personnel downsizing in the early 2005.

Furthermore, the separation between those who has the authority over the cash and the person those who record the bookkeeping administration was also established. The authorized people for all SKP's account are the director and the delegates and the person who makes SKP's record is SKP's treasurer, Agnees Indey. For this reason, we made a form called 'cash withdrawal memo' which can only be used at the Diocese's cashier with the authorization from one of the three people above.

Another system that has to be maintained is monthly budget planning, travel budget planning, and programme budget planning as well as the obligation to make a report after an activity is finished. It was established that the deadline for financial report is two weeks after the activity ended; however, the main staff has not been able to comply with this deadline for various reasons, most frequently other workload that they have to finish.

Another difficulty was unfriendly relationship with the staff at the Diocese's economic unit. Although a signature from one of the people authorized has been obtained, there were often questions to SKP's staff such as 'what the money is for' or 'whether an accountability report is available'. This issue has been discussed in the annual meeting and the delegates are willing to pass it on to the economic unit.

### **5.1.3. Training on financial administration**

This training is a follow up of the rearrangement within SKP's finance. The content of the training is intended to give information regarding institutional/organisational finance to those who need it. The material of the training includes accounting and its scope, cash flow report, documentation process, fixed assets, intangible assets, etc.

The training was held at the Sister's House "Maranatha", Waena on 26-28 October with a facilitator Mrs. Erly Suandy from Atma Jaya University Jogjakarta. The participants came from all staff of SKP Jayapura and two finance staff from SKP Merauke, involving one finance staff from Franciscan, and one finance staff from Sentani Parish.

Achievements: the programme of financial reporting introduced by the facilitator was MYOB programme. This programme can record and depict all SKP's assets. Furthermore, this programme is easy to understand and can be put into practice in a short time. The weakness of the training is its relatively short time so that many important things could not be discussed deeper and more seriously with the trainer.

## **5.2. Staffing**

According to SKP's Work Guideline, it has two types of staff: full time staff and part time staff. During 2005-2006, the number of main staff did not increase; there were **only five people** serving as director, programme manager, and division coordinators. Although in the early 2006, the Board of Founders had agreed to appoint one main staff and one part-time staff, the plan has not been fulfilled because the candidates have not been able to meet the requirements. Therefore in our work meeting we need to establish a clear recruitment programme and a strong selection team.

Until now, SKP has only **four full time staff** handling four divisions with various programmes in them.

- J. Budi Hernawan OFM: the Director, but he is also responsible for lobby within the advocacy division, serves as the head of publication and documentation division, and assists the division of peace culture development;
- Frederika Korain: Programme Manager, head of advocacy division and assists the publication and documentation division;
- Rudolf Kambayong OFM: responsible for the division of peace-building and is involved in the advocacy division, publication and documentation division, and ecology division;
- Rosa Moiwend is a staff in advocacy division but in the past year has been handling media advocacy programme and assisting the publication and

documentation division, peace culture development division, and the ecology division.

Outside the programmes, SKP has **only one full time staff** to handle finance and assets: Agnees Indey; and the Director has to be continuously involved in the matter of financial control.

Meanwhile, one **part-time staff** was added in Wamena, **Yunus Matuan**, apart from one **part-time staff** at SKP office, **Veni Mahuze**, who is responsible for households, archives, and library.

The limited number of staff has been discussed for a while and it has been suggested to the Board of Founders that the number be increased in accordance with the number of divisions, apart from the two main leaders: director and programme manager. The suggestion was based on the overload of work because the staff has to double their responsibility in several divisions at the same time, has to handle different programmes at the same time, and sometimes the programme has to be left behind when the staff is taking a course outside Papua for a relatively long time.

In 2006, in fact, SKP was lacking in staff because three main staff were taking courses or internship outside Papua although they did not occur at the same time.

### **5.3. Staff capacity building programme**

SKP faithfully develops its staff's capacity and skills both individually and as a group so that the team can have updated skills and renewed inspirations. The following is a list of courses that were taken to develop staff's capacity in several main fields: understanding of human rights, English, report writing, finding information, and financial administration:

- Congress of JPIC order and internship at JPIC OFM in Brazil (end of January-February): J. Budi Hernawan OFM
- Training on writing (February): all staff
- Course on human rights mechanism at UN (March): Frederika Korain
- Internship at the office of Franciscans International in Geneva (March-May): Frederika Korain
- English course at *English First* Jayapura: Agnees Indey, Rosa Moiwend, Frederika Korain
- English course in New Zealand (June-December): Rudolf Kambayong OFM and Harry Woersok from SKP Merauke.
- Training on video editing (July): Rosa Moiwend
- Course on financial administration (26-28 October): all staff
- Training on health investigation (1-5 November): Yunus Matuan, Timo Sefire OFM, Yosefin Haluk, J. Budi Hernawan OFM
- Advocate course (November-December): Yosefin Haluk

### **5.4. Staff's welfare**

Even though this issue was not discussed in the work meeting, as the main person in charge in the Board of Executives, we believe that this aspect needs to be reconsidered to be more adequate. In general, the main staff receive a basic salary in accordance with the Diocese's salary structure, which is around Rp. 1.5 million-1.8 million (USD 150-200) per month. Apart from it, the main staff receives an allowance from SKP such as transport allowance and communication allowance. *De facto*, the main staff also receives a housing allowance that will soon disappear if the Diocese

starts renovating APO mission complex. After deductions, the main staff generally takes home a pay of around Rp. 1.5 million-2 million (USD 150-200) per month.

Such monthly basic salary and take home pay is around twice of Provincial Minimum Wage (UMP) 2006, which is Rp 822,500, and slightly above the Decent Standard of Living (*Kebutuhan Hidup Layak* or KHL), which is Rp 1,250,000. However, if compared with the skills and the volume of workload currently held by the main staff and SKP structure, such amount needs to be reviewed under the following consideration.

- The quality and the commitment of the staff have to be maintained by giving them appropriate remuneration. All main staff at SKP can speak English and understand English text well, have computer skills and are experts in their own fields.
- The preservation of our work must be maintained in the face of competition from job opportunities outside the church. Offers from the business world and from government work are increasing and, without a balance, it will be difficult to obtain reliable human resources.
- The change of allowance structure especially housing allowance. There should be one salary structure with excellent salary that can accommodate the various allowances, rather than having these allowances that are often difficult to calculate.
- Staff's side job outside the office reflects that there is an income issue. Although the issue has not been revealed openly, we have been keeping track of it.
- A 20% increase of UMP in 2007, which becomes Rp 987,000.
- Availability of the funding from SKP to increase staff's salary. The fund from SKP is more than enough to pay for staff's salary continuously.

Therefore, together with SKP's financial consultant, we are currently designing a new salary structure that we will propose to the Board of Founders to be discussed and responded.

### **5.5. Network**

Officially, SKP has formal cooperation with four NGOs: **PBHI** in Jakarta and **PBI** in Jayapura, **Franciscans International** in Geneva, and **WITNESS** in New York. Such cooperation is called formal because it is formulated in a Memorandum of Understanding (MoU) which binds the two parties in it for a certain period of time. SKP's cooperation with the four institutions has different aims and objectives. With PBHI, SKP has the partnership in order to accompany Papuan students studying outside Papua so that they will have more human rights perspective and will, in turn when they enter the world of work, be able to give concrete influence to the community.

With PBI, SKP Jayapura and 4 other SKPs cooperated in order to provide protection for SKP's staff and offices from any risks that might arise due to their work. The risks are not something impossible but it cannot be eliminated completely either. Therefore, SKP tried to be tactical especially for programmes with high risks because they are in touch with the vested interests of those in power.

Franciscans International is SKP's partner in the UN. Every year, SKP has the opportunity to present human rights condition in Papua in the Session of UN Council for Human Rights. The opportunity is a strategic chance but it is very demanding in the aspects of language, mastery of UN's procedures, politics within the commission, and finance. So far, OFM Province Australia is supporting SKP in this programme

and this year, for the first time, SKP's staff (Frederika Korain) joined an internship at FI's office in order to better understand the work method and FI's partnership with diplomatic missions in Geneva.

WITNESS is SKP's partner in the field of media advocacy especially the producing of short movies to build public awareness and to socialise issues to a wider scope. With an expertise that has been internationally acknowledged, WITNESS' staff diligently accompanied SKP staff (Rosa Moiwend) in developing this area in order to support the effort of bringing up the issue of social injustice in Papua in audio-visual form to a wider scope. The issue that we used as an entrance to this area is the discrimination against the vegetable-selling women in Jayapura city.

SKP does not only work with formal partners but also with other partners in Jayapura such as PGGP, JPIC Sinode GKI, environmental NGOs in Jayapura, human rights and civil political NGOs in Jayapura, national NGOs, political activist groups, student groups, tribal groups, local and national journalists. The work relationship varies from exchanging information, handling cases, to strategic partnership. Such cooperation is very important considering that the issues of human rights, justice and peace is a universal problem that needs to be handled by as many actors as possible.

One thing that is important to be mentioned here as a partner is diplomatic missions in Jakarta, Bangkok, and Geneva. The relationship with these diplomatic missions is a strategic one because it can be used to highlight our issues both to the Central Government level and to the international world. Their influence was mostly felt when we had to break the barrier in the issue of Abepura 16 March 2006. The relationship can make it easy to clarify various issues that usually develop among Papua community about "UN's intervention, US troops to Papua, the arrival of UN's Secretary General in Jayapura, etc." as well as in discussions about Papua within UN's mechanisms such as in the Office of UN's High Commissioner for Human Rights in Bangkok, Special Rapporteurs in Geneva, etc. Without a good relationship within this network, it would not be so easy to clarify a lot of issues that often deceive our people. To be able to put this network to use, the human rights training in Geneva and work relationship with FI become a vital means.

Apart from external partners, there are also internal partners within the Diocese itself namely the pastoral workers. The relationship with pastoral workers has been built since SKP was established on 1 July 1998 because SKP is indeed part of pastoral in the work of the Diocese of Jayapura. Therefore, the Board of Executives is very grateful to have a field partner who is always willing to give information, suggestions and cooperation, as well as requesting our assistance and involvement in parishes.

In the new hierarchy, there are several notes delivered by SKP's delegates in SKP Work Meeting 2006. One interesting note was that the Diocese requested that the Board of Executives involve commissions and cooperate with the deans more. In our opinion and experience this year, Board of Executives had never received any invitations for any meetings with commissions or deans. It is not a problem for us but the question is how we can be involved in the framework of the commission and encourage their involvement if we are never asked to sit together. It is certainly difficult to plan something together if, *de facto* and *de jure*, the Board of Executives is placed outside the framework of the commissions and deans.

## **6. CONCLUSIONS AND RECOMMENDATIONS**

Similar comments frequently directed at SKP by Cordaid, CMC, and Caritas Australia as follows: 'It's a wonder that with so little resources and so much workload SKP can

still survive'. Such comment reflects the truth. On one hand, as a board of executives, we try to perform our duty as well as we can; on the other hand, there is a discrepancy that must be handled seriously.

### **6.1. Achievements**

With all its limitation, SKP Board of Executives has **first and foremost** been able to make its contribution to "disturb the public's status quo" that is not sensitive to the issues of injustices around or is numb with media coverage that is not objective in presenting the victims' voice. This is the main contribution that is continuously maintained by the Board of Executives.

**Secondly**, the Board of Executives also believes that it will loyally be present for any suffering as long as it can cope with them with its existing capability. This involvement is beyond any geographical borders, political beliefs, ethnic groups, and religions because that is our call to spread the words of the Christ. Although small and consisting of young people, the Board of Executives braces itself to be present places and situations that might sometimes be exposed to high risks because of labels such as 'involved in politics', 'separatist', or being isolated.

**Thirdly**, ecumenical and inter-religious cooperation. The partnership developed by the Board of Executives is a real embodiment of inter-churches and inter-religious cooperation. The scope of work, approaches, and network are varied and that is the world's reality where "We are the Church" is being called to spread the words of the Christ. Whether admitted not, the presence of the Board of Executives in various ministry works always reflects the presence of church amidst all sufferings in the community (*option for the poor*).

**Fourthly**, loyal to the programme and selective to offers from outside party. If seen from 2006 work programme, the Board of Executives tries to be loyal to the guideline that has been established and rely on team work system so that the heavy workload can be borne together.

### **6.2. Shortcomings**

**First**, the Board of Executives needs "someone to talk to". This would formally be the Board of Founders and the Delegates. We admit that we have not communicated enough on a routine basis with those two institutions and are determined to increase the effectiveness of the delegates' function. In addition, we perceive the delegates' presence to be minimum. Routine meetings with the Board of Executives are also scarcely attended.

**Second**, experience and skills. The staff is usually between 25-40 years old and therefore they are still lacking in experience and skills but there is a potential to be developed as long as they are given adequate space to grow.

**Third**, staffing and the demands of community's needs. In this report, this issue has been raised frequently and there is no need to repeat it here.

**Fourth**, team work is full of challenge because of the differences in personality, conflict of interests, and the difference in the rhythm of work. In its course, our team clearly saw that conflicts and discrepancies between one another is a reality that needs to be realized in humility for it be overcome.

**Fifth**, cooperation with the circle of commissions / boards within the Diocese office. This note is a feedback from the diocese's hierarchy and part of the answer is back

at the structure itself. the Board of Executives openly accepts cooperation from pastoral's field officials both from the commissions/deans.

### **6.3. Recommendation**

- Relationship with the Board of Founders and the *Delegat* should be increased into a dynamic and constructive relationship with role sharing.
- The loyalty in the victims and the team work on the Board of Executives level must be maintained, continued and improved. Therefore, the dimension of reflection must be given adequate room by all staff so that loyalty in a ministry that can sometimes be lonely and demanding can be overcome.
- Additional staff: minimum 1 person per division, especially the advocacy division, publication division, ecology division, and finance and assets division, as well as replacement of household staff. This is inevitable for the sake of providing more effective and comprehensive ministry.
- Improvement of staff's welfare adequately so that the process can run smoothly and the quality increases.
- The Diocese's internal network needs to open itself to constructive dialogues with the Board of Executives so that the process of developing the ministry in the whole Diocese of Jayapura can be more down to earth.

This is the end of our report and for all the trust, support, criticism, and reprimands addressed to us for the development of our ministry to the people of Papua in 2006, we thank you.

Yours sincerely,

J. Budi Hernawan ofm  
Director

## Daily Activities of SKP's Board of Executives Diocese of Jayapura In 2006

<b>Date</b>	<b>Activities</b>	<b>Remarks</b>	<b>Category</b>
4 January	SKP's routine meeting	Internal coordination	Organisation
5-6 January	Consillium meeting	Reporting to the Head of Custody OFM	Network
7 January	SKP meeting with Kuria & Consillium	Re-arranging SKP's Board of Executives	Organisation
8 January	Guests from UNDP	Exchanging information regarding the condition of Human Rights issues in Papua and building a network	Network
9-14 January	Meeting of SKPs from all over Papua in Timika	Work coordination of SKPs all over Papua	Network
19 January	Evaluation on Toni's internship	Report to SKP and input for students' internship programme in SKP	Personnel
20 January	SKP's routine meeting	Internal coordination	Organisation
23 January	Meeting with the Netherlands Embassy in Jakarta	Exchanging information regarding the situation of human rights in Papua and to build a network	Network
24 January	Meeting with PBHI Jakarta	Exchanging information regarding the situation of human rights in Papua and to evaluate the cooperation between the two agencies	Network

12 June	Meeting between religious leaders	Inviting religious leaders to be involved in voicing people's aspiration	Peace-building
13 June	Guests from HRW	Exchanging information regarding the situation of human rights in Papua and to build network	Network
14 June	Meeting with delegation	Coordination of work programme and organisation	Organisation
15 June	Discussion with ICRC	Involving ICRC to pay attention to the condition of 16 March case prisoners	Advocacy
16 June	Meeting of PTD Lobby Team	Team work coordination	Lobby
18 June	Meeting with vegetable-selling women	Organising the basis for the women	Advocacy
2-5 July	Meeting with Franciscans International in Bangkok	Strengthening international advocacy network	Network
2-7 July	Visit to Baliem Valley	Assessing Baliem's condition for reconciliation	Peace-building
2 July	Recording of testimonials from B 16 M prisoners	Audiovisual documentation of the victims' condition in prison after torture	Advocacy
5 July	Monitoring B 16 M trial	Trial documentation and accompaniment for the defendants	Advocacy of litigation
6 July	Meeting with PBHI	Work coordination for both institutions in advocacy and organising students	Network

6 July	Press conference Mil 62-63 case in Abepura	Publication on the legal process for Mile 62-63 case which is against applicable rules	Advocacy
6-12 July	Visit to Custody of Singapore	Exchanging information regarding the situation of human rights in Papua and to build network	Lobby, Socialisation of information
7 July	Interview with B 16 M victims of torture	Audiovisual documentation	Advocacy
9 July	Visit to Wamena with WITNESS	Inviting partners to know the field situation in Papua	Advocacy
10-15 July	WITNESS training in Jayapura	Strengthening of video making programme of the film about vegetable women	Advocacy video, staff's capacity building
11 July	Meeting between WITNESS and vegetable women	Introduction between partner and community accompaniment by SKP	Advocacy
17-19 July	Visit to SAMADI Diocese of Bandung	Exchanging information regarding the situation of human rights in Papua and to build network	Network
18 July	Guests from US Embassy	Exchanging information regarding the situation of human rights in Papua and to build network	Information & lobby
19 July	Monitoring B 16 M trial	Documentation on the legal process of B 16 M case and support for the defendants	Litigation
20 July	Discussion with JPIC GKI bureau	Strategy to handle B 16 M case	Advocacy
21 July	Meeting with UNDP	Exchanging information regarding the situation of human rights in Papua and to build network	Exchanging information, Network
22 July	Recording of testimonials from B 16 M prisoners	Audiovisual documentation	Advocacy
26 July	Meeting with Atma Jaya Audit team in Jogjakarta	Exploring SKP financial auditor	Organisation
31 July	Evaluation I: working team for vegetable women	Strengthening the agenda of field research	Advocacy
2 July	Monitoring B 16 M trial	Documentation and accompaniment for the defendants	Litigation
2 July	Meeting with INSIST in Jogjakarta	Training preparation for the investigation on Wamena and training on preparation of work programme	Network
5 July	Visit to the defendants of 16 M case at LP Abepura	Accompaniment for the defendants	Litigation
7 July	Monitoring B 16 M trial	Documentation on the trial and accompaniment for the defendants	Litigation
8 July	Meeting with Executive Secretary of FOKER LSM Papua	Exchanging information about handling B 16 M case	Network
8 July	Meeting with MRP	Requesting MRP's attention to the fate of victims in B 16 M case	Advocacy
9 July	Monitoring B 16 M trial	Documentation and accompaniment for the defendants	Litigation
10 July	Coordination meeting of researchers team for vegetable selling women	Researchers' team work coordination	Advocacy
10 July	Meeting with B 16 M advocacy team	Team work coordination	Litigation

11 July	Meeting with volunteers	Internal work coordination	Organisation
11-18 July	Visit to Caritas Australia	Work coordination with SKP	Network
July-December	English course in New Zealand	Improving staff's English language proficiency	Staff's capacity building
14 August	JPIC animation for Franciscan Students	Socialisation of the spirituality of JPIC work to Franciscan Papua young friars	Peace-building
15 August	Meeting with B 16 M team	Team work coordination	Advocacy
16 August	Lecture at STT Walter Post	Socialisation of the idea Building Papua Land of Peace among theology students	Peace-building
17 August	Meeting with B 16 M team	Team work coordination	Advocacy
21 August	Discussion with Chris Sidoti (ISHR)	Exchanging information regarding the situation of human rights in Papua and to build network	Network
22 August	Lecture at STT Walter Post	Socialisation of the idea Building Papua Land of Peace among students of theology	Peace-building
23 August	Internal meeting	Internal coordination	Organisation
24 August	Meeting with Atma Jaya audit team in Jogjakarta	Strengthening of office financial management through external audit system	Financial administration
24-28 August	Monitoring on SPP Conference	Organising women grassroots groups in Papua	Network
25 August	Meeting with B 16 M team	Team work coordination	Litigation
28-31 August	Investigation of Borders in Oksibil	Collecting data on the community situation due to conflict at the border	Investigation
29 August	Meeting with B 16 M team and Papua Chief of Regional Police	Clarification of criminal report by the prosecutor against B 16 M team of lawyers	Litigation
2 September	Meeting with B 16 M team	Team work coordination	Advocacy
3-14 September	Meeting with KKP KWI and workshop on IMPARSIAL in Jakarta	Socialisation of information about human rights in Papua and input on the development of national legislation in military field	Network
5-10 September	Visit of the Secretary of JPIC OFM & MSC Australia to Jayapura	Understanding human rights field condition and strengthening work relation	Network
